1.01 Services in General.
Walk-in crisis services are office-based crisis services providing immediate screening and assessment and brief, intensive interventions focused on resolving a crisis and preventing admission to a more intensive level of care.

Walk-in crisis services are immediately accessible services for adults, children, and youth that serve two purposes: ready access to psychiatric assessment and treatment for new individuals with urgent needs, and access to same-day psychiatric assessment and treatment for existing individuals within the system with urgent needs. For persons whose crisis screening and/or assessment indicate that they are an extreme risk of harm to themselves or others in their immediate environment, rapid transfer to a higher level of care is facilitated. If extreme risk of harm is ruled out, brief crisis intervention services are provided on-site. Walk-in crisis services are designed to be intensive and time-limited, and are provided until the crisis is resolved or the person is referred to another level of care. After the initial crisis assessment and intervention, continuing services may be provided in the office or in vivo for up to 90 days until the individual is stabilized and/or transitioned to appropriate behavioral health services. Walk-in crisis services are offered in the local service area based on availability of NTBHA funding.

The service shall be directed at achieving one or more of the following outcomes:
- Prompt screening and assessment
- Stabilization in the least restrictive environment
- Crisis resolution

III. Walk-In Crisis Services

A. Definition
Walk-in crisis services are office-based crisis services providing immediate screening and assessment and brief, intensive interventions focused on resolving a crisis and preventing admission to a more intensive level of care.

B. Goals
• Prompt screening and assessment
• Stabilization in the least restrictive environment
• Crisis resolution
• Linkage to appropriate services

C. Description
Walk-in crisis services are immediately accessible services for adults, children, and youth that serve two purposes: ready access to psychiatric assessment and treatment for new individuals with urgent needs, and access to same-day psychiatric assessment and treatment for existing individuals within the system with urgent needs. For persons whose crisis screening and/or assessment indicate that they are an extreme risk of harm to themselves or others in their immediate environment, rapid transfer to a higher level of care is facilitated. If extreme risk of harm is ruled out, brief crisis intervention services are provided on-site. Walk-in crisis services are designed to be intensive and time-limited, and are provided until the crisis is resolved or the person is referred to another level of care. After the initial crisis assessment and intervention, continuing services may be provided in the office or in vivo for up to 90 days until the individual is stabilized and/or transitioned to appropriate behavioral health services. Walk-in crisis services are offered in the local service area based on availability of N TBHA funding.

D. Standards
1. Availability
   a. Contractor shall provide immediate access to qualified staff to provide crisis screening, assessment and intervention services during hours of operation.
   b. Children’s walk-in crisis service hours shall be flexible to meet family needs.

2. Physical plant

   d. Contractor’s office spaces shall afford privacy for protection of confidentiality.

3. Staffing
   a. A psychiatrist shall serve as the medical director for all crisis services and approve all written procedures and protocols.
   b. Duties and responsibilities for all staff involved in assessment or treatment shall be defined in writing, appropriate to staff training and experience, and in conformance with
the staff member’s scope of practice (if applicable) and state standards for privileging and credentialing.

c. All crisis service staff members shall receive crisis training that includes but is not limited to:
   1) Signs, symptoms, and crisis response related to substance use and abuse;

   c. Crisis screening shall be performed using the crisis elements of the Adult-TRAG, CA-TRAG or other DSHS-approved screening tool.

   d. Crisis screening shall be documented, and the screening shall evaluate risk of harm to self or others, contributive medical issues and the need for immediate full crisis assessment, emergency intervention, and evaluates the need for immediate medical screening assessment by a physician (preferably a psychiatrist), psychiatric APN, PA or RN.

   e. A written procedure for performing the crisis screening shall be developed and implemented. The procedure shall address the criteria for requesting an immediate crisis assessment, medical screening/assessment, and psychiatric evaluation.

   f. An assessment shall be completed by an LPHA or RN within one hour of referral from the screening process.
